

Deliver worldclass cybersecurity with our inexpensive bundle - prepackaged, service-branded and MSP-friendly for fast go-to-market and recurring ROI

How It Works in **Just 3 Steps**

Sign Up

Quick and streamlined online ASP sign up empowers you to swiftly market, sell, and advocate cybersecurity and compliance.

Client Onboarding

Complete and submit a customer take-on form where all provisioning is done for you. Start deployment with no upfront costs.

Manage + Support

Monitor device security across all clients and provide service & support as required. The SMBsecure team is with you all the way.

What SMBsecure™ can do for your IT Services Business!

Earn Trust

Give Value

Foster Compliance

Safeguard Clients

Grow Revenue

PARTNER BENEFITS

Receive training to enable you to sell, onboard, and support clients effectively.

SMBsecure is simple, intuitive, and effortless, allowing you to focus less on support and more on scaling quickly.

- Technical training and demonstrations.
- Sales coaching & predesigned marketing material for successful conversions.
- **100%** established service brand
 - no white-labelling required!
 - package & sell as your own!
 - market-ready with instant delivery!

COMMERCIAL ADVANTAGE

Set your own service price and generate attractive margins with a recurring revenue stream. Offer practical and effective cybersecurity with low business overhead and the most competitive pricing on the market.

- No setup fees
- No minimum order or term
- No required revenue targets
- Short sale cycles
- Scaling partner tiers for extra margins!

Data security is no longer an optional (or discretionary) need for doing business. Ever increasing and sophisticated threats puts your clients' integrity and business at risk.

SMBsecure™ is a proven, trusted and inexpensive service bundle that ensures your clients' business remains protected and compliant through simple but robust cybersecurity enforcement.
